

Security & Safety

“PG can recommend Camelot to ensure the safety + security of our building.”

Project: Cost neutral security solution for a previous sport's club over a 4-year period

How did we respond to any problems you had?

Excellent response times and reporting of the building!

What has been your overall impression of Camelot Property Management?

Very good, trustworthy with attention to detail. My impression of Camelot from the first meeting, and the initial handover process to Camelot was excellent.

The way in which Camelot looked after the property, and the monthly inspection reporting process was also outstanding.
